

# CHHS & GSU Funding and Fiscal Resources

The College of Health & Human Sciences has a small grant program of up to \$5,000 per applicant. Applications are solicited twice yearly, in fall and spring semesters.

The University has multiple intramural funding opportunities available for faculty. The University 's funding site is: [http://www.gsu.edu/~wwwosp/funding\\_opp/internal.htm](http://www.gsu.edu/~wwwosp/funding_opp/internal.htm). University grants are also described on pages 3 - 5 in this booklet.

The University also has a website address with links for external agencies, internal grants (as above), searchable funding databases, and new funding opportunities:  
[http://www.gsu.edu/~wwwosp/funding\\_opp/index.htm](http://www.gsu.edu/~wwwosp/funding_opp/index.htm)

In the event that a small amount of support is needed, and the need is urgent, a direct request can be made to Department Chairs and School Directors concerning the availability of any discretionary research funds. In conjunction with faculty, unit heads may provide support for various research and research development endeavors through indirects (facilities & administrative costs): see "Guidelines for Internal Use of Unit Resources for Research Development" available in a Word document on the CHHS website at [http://chhs.gsu.edu/admin\\_resources.asp](http://chhs.gsu.edu/admin_resources.asp)
